

BOY SCOUT'S EMERGENCY PACK

An Emergency Pack contains the essential outdoor gear necessary for survival or medical emergencies. Over the years I have prepared an Emergency Pack that I carry with me on all of my adventures. The benefit of the Emergency Pack is that you know where all of your essential gear is located and that your gear is ready to grab in an emergency.

Your Emergency Pack will consist of the following items:

- fanny pack
- first aid kit with moleskin
- flashlight with spare batteries
- matches and lighter
- fire starter
- compass
- map
- pocketknife
- (2) garbage bags
- toilet paper
- (2) energy bars
- emergency poncho
- emergency blanket
- sun screen
- bug repellant
- rope
- whistle
- aluminum foil (two 12" x 12" pieces)

Protect any items that could be damaged by water in a ziplock bag until needed. These items are for emergency use only and are not intended to be used during normal campout activities. If any of the items are used, be sure to replace the items upon return so your Emergency Pack is ready for your next adventure.

Please ask me if you have any questions.
