

# BOY SCOUT'S READY PACK

Over the years, I have learned the importance of maintaining a Ready Pack for a variety of outings. A Ready Pack consists of all your essential camping and backpacking gear, and by maintaining your Ready Pack, you can minimize your preparation time and avoid forgetting your essential equipment. The primary component of your Ready Pack is your backpack. Regardless of whether you are backpacking or car camping, your backpack is the best package for organization, transporting, or storing at the campsite.

Your Ready Pack will consist of the following items:

- Backpack
- Pad
- Sleeping Bag
- Emergency Pack
- Plate/Cup
- Utensils
- Toilet Paper
- Flashlight
- Rain Gear
- Tooth Brush/Paste, etc
- Matches
- Garbage Bags
- Water Canister
- Hand Sanitizer
- Boy Scout Handbook and Journal

Depending on the type of camping trip you are taking, you can add the following items during preparation:

- Clothing
- Food
- Stove/Fuel
- Cook Gear
- Tent

Upon returning from your trip, be sure to maintain all of your equipment and replenish the supplies to ensure that your Ready Pack is prepared for your next adventure.

Please ask me if you have any questions.
